Special notes about foot: (Flat, High instep, bun me will help to ensure a better fit for your boot!	ions, hammer toes, etc – everything you can share with)

I prefer to personally take your measurements here at my shop; however, if you can't make it to my shop then you can send me the above measurements. Use a narrow, cloth tape and make snug, not real tight, measurements. Measure all the way around the foot at the indicated points in the above diagram and complete the chart for each foot. I recommend measuring the same measurement several times for consistency. Also, please send me your original foot tracings, NO COPIES.
